Cost of Living support and advice

With energy bills, inflation and other costs of living forecast to continue to rise steeply, households are feeling increasing financial pressures, both locally and across the country.

To make it easier for Telford and Wrekin residents to find out about the range of support available to help with the cost of living crisis, Telford & Wrekin Council has created an online hub as a one-stop-shop for information and help available from the council and trusted partners.

The new hub www.telford.gov.uk/costofliving includes links to help, support and advice around benefits and finances, bills and affordable warmth, food costs and general wellbeing. Although the new information hub is web-based, free internet access is available in Southwater, Wellington, Madeley and Newport libraries for people who can't get online at home.

1 Introduction

Welcome to 2023's edition of the Carer's Wellbeing Guide.

We've received some great feedback from you our local carers on previous editions of the guide, each year we enhance this one-stop guide – with even more useful information, advice and contacts to support you with challenges you may face in your day to day life as a carer while we are in this turbulent climate.

We want you to know we are on your side and want to support you as well as thank you for continuing your vital role as a carer, looking after your loved one(s) and enabling them to get the most out of their lives. While we face further unprecedented challenges with the cost of living crisis, we know caring is rewarding and fulfilling, but acknowledge it can also be very stressful and tiring. We want to support you with building your resilience and maintaining your own wellbeing.

This guide tells you in one place about the support you are entitled to as a carer and signposts to local organisations in our borough that can be of assistance to you.

We want as many carers as possible in our borough to use and benefit from this guide, please share the digital link with them and encourage them to register as a carer with Telford and Wrekin All Age Carers Centre.

Councillor Andy Burford,
Cabinet Member for Health and Social Care

We would welcome your feedback on the Guide by completing this short survey on www.telford.gov.uk/cwgfeedback

The Carers Network

The Carers Network replaces the Carers Partnership Board. Telford and Wrekin CVS launch 'The Net'. The Net will work in partnership across all sectors. It will work alongside providers of services and unpaid family carers to ensure carers have a voice and co-produce carer lead services. The Net will:

- Facilitate and lead on a quarterly carers forum. A place to welcome guest speakers and deliver Question and Answer sessions on topics relevant to the varied caring role
- Have access to a monthly creative arts session to collate carer voices meaningful and creatively
- Provide comment and compliment the local carers strategy
- Have access to a carer online chat group (outside of normal working hours)

There will be a focus on carers throughout the summer of 2023 – please look out for information on how to get involved on social media and through the Carers Network.

Making it Real Board (MiRB)

Are you a carer for someone who would like to help shape future services?

We have developed a [co-production](#)

[framework](#) where our experts with lived experience are involved in the planning of changes and influence the way Adult Social Care is developed.

As a person with care and support needs, it can be very frustrating to feel like you have lost your voice. Our Making it Real board gives those that wish, the opportunity to have their voice heard. The board works with Adult Social Care to ensure that the values and statements we hold are delivered in a way that is meaningful, honest, and accessible. If the person you care for feels that their ideas could change and shape the way we deliver Adult Social Care in Telford, we would welcome their application to join.

In 2023 we are relaunching our board with new members, a revised charter and a passion to make a difference.

For more information about how the person you care for can get involved and to hear why other members joined visit www.telford.gov.uk/mir, email makingitreal@telford.gov.uk or drop in to the Independent Living Centre to discuss the Making It Real board with a member of the team.

Equality

Co-production starts from the idea that no one group or person is more important than anyone else and everyone has skills, abilities and time to contribute.

Diversity

Co-production should include everyone and be accessible to all - be as inclusive and diverse as possible.

Co-production Framework

Accessibility

Making everything accessible is the way to ensure that everybody has an equal chance to take part fully in an activity in the way that suits them best.

Mutual Benefit

Ensuring people receive something back for putting something in; supporting involvement and feeling valued.

Getting you on board...

It's helpful and reassuring to know how things work when you register with us and to understand the alternative ways we can support you on your carers journey.

What we offer may include:

- Connecting you to local services for both you and the person you care for
- Planning for emergencies
- Looking after your own wellbeing
- Having a break from caring
- Peer support
- Employment, education or training opportunities
- Wellbeing Checks
- Caring Matters Magazine
- Support when your caring role comes to an end

Carers Assessment

As a family or friend carer you are entitled to a Carer's Assessment, whether or not the person you care for has had an assessment of their own needs through social care. It's not in any way about judging how well you do your caring, it's about how that caring is affecting your life and what can be done to help you.

A [Carer's Assessment](#) is for adult carers over 18 years old, who are looking after another adult who is physically or mentally ill, disabled, frail or has alcohol or substance misuse issues. It is used to assess the impact their caring role has on their life and what support could be put in place to help. In Telford and Wrekin carers assessments may be requested through Family Connect and carried out by social workers.

Carers Allowance

You may be eligible for Carers Allowance if you provide at least 35 hours a week caring for someone. This can include:

- Helping with washing and cooking
- Taking the person you care for to a Doctor's appointment
- Helping with household tasks like managing bills and shopping

For more information, please contact the Carers Allowance Unit on:

Relay UK (if you cannot hear or speak on the phone): 18001 then 0800 731 0297 (Video relay service for British Sign Language (BSL) users)

Do you think you are a young carer?

If so, we are here to help you with all your questions and worries.

Young carers may have to deal with a range of illnesses with the person they care for, such as disability, chronic illness, mental health difficulties or problems with drugs or alcohol misuse.

They may take on all types of caring responsibilities - cooking, cleaning, shopping and other practical homecare or personal care such as lifting, washing and personal hygiene. They may give emotional support. Many carers take on caring responsibilities that an adult would normally do.

With the risk of social isolation, bullying, school attendance problems, and physical and mental ill health themselves, young carers can often find life tiring, worrying and lonely.

If you think you are a young carer or you know someone who is please get in touch with us Telford and Wrekin CVS - Carers Centre provide confidential advice, free of charge.

Emergency Welfare Assistance through Telford & Wrekin Council

Please visit <https://telford-gwa.egovhub.net/Gwa/launch> to see if you can apply for emergency welfare assistance through Telford & Wrekin Council.

Independent Living Centre

The Independent Living Centre is funded by Telford & Wrekin Council in partnership with Telford and Wrekin CVS and can be found at Telford Town Centre within the Hazeldine House shopping complex.

We would like to invite you to the Independent Living Centre where we will always make time to listen to you and help to identify any areas where we can support you with your role as a carer.

We have a large selection of gadgets and gizmos that may enable the person you care for to do more for themselves or may indeed make life a little easier for you. Some of those things you may need to self-purchase, but we can ensure that you have tried them, and possibly speak with one of our Experts by Experience volunteers who can give honest advice about what really works. We do not sell any products at the centre so we are completely unbiased as to the advice we offer.

The centre has three designated areas, a kitchen, bathroom and bedroom. As well as the self-purchase items on display the rooms also have equipment that after an assessment may be provided to you on a long-term loan basis to help you within your own home.

Technology changes rapidly, especially in the past few years. There are far more things available to help people to stay in their own homes without formal support. We understand how daunting it can be to try to research and understand all of these things, therefore we have a dedicated team at the Independent Living Centre who can support you to identify what there is and if it would be suitable for you, how it works, what it may cost and to offer continued advice. They are based at the Independent Living Centre on Wednesday's for drop in advice or you can arrange an appointment if you would rather.

Our Sensory Team are also here on Wednesday's to offer specialist advice with hearing or sight loss including using equipment or helping you connect with community groups.

Our volunteers or Experts by Experience work closely with our Sensory and Assistive Technology Team, they can offer open and honest advice about what really works and can help you to remain independent.

What we find most useful about the space here is that it often helps people to open up and have a good conversation about the things that they may struggle with or worry about. This applies to both Carers and those they care for. You do not need to book an appointment and can drop in which can help encourage those who may be hesitant to engage with any formal service. If a formal support service is needed, we can also support you through the care assessment process here at the Independent Living Centre to make your experience seamless and without having to engage with numerous departments.

Our team looks forward to meeting you.

The Virtual House

Our virtual house is an interactive tour showing examples of equipment and solutions that may be helpful to you or a family member to do daily activities around the home.

If you would like to view and try some of this equipment in person before purchasing you can do so by visiting the Independent Living Centre, where you can talk to a member of our team about the items.

Occupational Therapy Services in Telford and Wrekin

The Occupational Therapy Service in Telford & Wrekin Council deliver three services. Within the Independent Living Centre we have recreated a bathroom, bedroom and kitchen, as well as having a staircase and stairlift where we can assess you with access to a variety of equipment. We are currently offering these assessments as booked appointments. The centre is open for you to come and try equipment or aids that you might be considering purchasing.

Equipment and Adaptations

The Occupational Therapy Team will also assess you at home if your needs are more complex. We will assess the difficulties you have completing daily living tasks and consider equipment or techniques that may make these tasks easier for you. In some circumstances, when equipment has not helped, we may look at how we can adapt your home to make life easier for you. This may be simple, minor adaptations like a second stair rail or grab rails in the bathroom, it might be a stairlift, or it might be a more complex adaptation such as wetroom or home lifts. Sometimes, we will also adapt the environment to make it safer and easier for you to be cared for. All adaptations are subject to landlord approval if you do not own your own home and major adaptations are also subject to a financial eligibility assessment.

Smarter Care

Our role is to support unpaid, informal carers over the age of 18 to continue in their role safely. We will assess you and your carer and provide solutions that may support you. We may just need to give you some advice about basic moving and handling and how to look after your back, and sometimes we may need to consider pieces of equipment or an adaptation to make things safer and better for both of you. We will demonstrate how to do things safely, and help improve your confidence in providing care for your loved one. We may also talk to you about risk management and ways to reduce risk of injury to yourself or the person you care for.

To be referred for an Occupational Therapy Assessment for any of these services please contact WIP on **Tel:** 01952 916030 or **Email:** wip@tandwcv.org.uk. Please note, if you would like a Smarter Care assessment then we need the details for the person and all carers involved.

Shoulder Roll

Roll the shoulders backwards and forwards several times

Wrist Stretches

Straighten both arms out in front and, with one hand, bend the wrist of the other hand up

Trunk Twist

Fold the arms and twist the trunk to the left and then to the right

Challenging Perceptions

Explore and address mental health issues and wellbeing. To do so, we will enable members of our communities to improve their lives by coming together and supporting each other to grow in confidence and engage in opportunities. We help to reduce stigma and discrimination by providing information, advice and support and promoting understanding and awareness of mental health issues and wellbeing that young adults face. Challenging Perceptions is a user-led organisation. Therefore, we are run by people who use our and others' mental health and wellbeing services. The choices people who use our services make, and the outcomes we help them to attain, are ones we want for ourselves. The future we strive for is where minds and opportunities are open and we all grow mentally stronger together.

Volunteering in Telford and Wrekin

As a Co-operative Council we believe our residents have an important role to play in volunteering and supporting the local community. Becoming a volunteer can be personally rewarding and help you to 'give something back' to your community, examples of just some of the ways you can volunteer are:

- caring for a friend or member of the family;
- caring for animals and wildlife;
- setting up a volunteer scheme at your workplace;
- spending time mentoring and befriending a young person;
- working outdoors to improve the environment;
- working on local community projects;
- becoming a school or college governor.

As a volunteer you can give your time to help charities and community groups make a difference, but volunteering can also provide you with many benefits too, including:

- the chance to have fun doing something you've never tried before
- increased confidence
- a sense of satisfaction and achievement
- the opportunity to make new friends and contacts with diverse backgrounds and experiences
- increased job and career prospects and new skills - over seventy per cent of employers would hire a candidate with volunteering experience over someone who has never volunteered.

So why not give it a try! <https://volunteertelford.co.uk>

6 Preparing for Winter and Summer

The weather over winter can be unpredictable and can sometimes stop us getting out and about. Here are some winter ready tips:

- Check your boiler has been serviced.
- 21 degrees C is the ideal temperature for your living room, and 18 degree C for your bedroom.
- Make sure you can access and turn off any stopcocks in case you need to stop your pipes from freezing and bursting.
- Having a torch, candles and blanket handy is good in case there are power cuts.
- Spare batteries are always handy to have, like for the TV remote, torch and hearing aids.
- If you have a mobile phone, make sure it is fully charged at home before heading out.
- Stock up your medicine cupboard and check you have enough prescription medication.
- Keep salt handy to put on steps or paths when it's icy outside.
- For drivers, check your vehicle is winter ready. Top up anti-freeze screen wash, check your tyres and keep a torch, warm clothes and something hi-vis in the boot just in case.
